

Lipmann Walton & Co Ltd

- Lipmann Walton & Co Ltd was established in 1953 by Eric Lipmann as a firm of metals & minerals merchants.
- Our job starts where minor metals are generated – sometimes at the mines where by-products arise through refining, sometimes as scrap or revert where minor metals return to the supply chain following a manufacturing process.
- Lipmann Walton also commissions the upgrading or refining of raw materials such as titanium, zirconium and hafnium.
