

Company: _____

Date: _____

Instructions:

Please complete one column per Refinable with an "X", and return the completed survey **by 15 Feb 2011** to rondepierre@epmf.be.

Please refer to Section 2.1 and Appendix 1 of the ECHA Guidance on intermediates (Dec 2010) and the minutes of the 11 Jan 2011 PM Refiners WG meeting to understand what is meant by strict control (starting with rigorous containment).

For transported isolated intermediates, kindly take into account that SCC must be applied throughout the entire life cycle of the intermediate (up and down the supply chain) to be considered strictly controlled.

Refinable	Not relevant for my company	Will <u>not</u> comply with latest interpretation on SCC		Complies with latest interpretation on SCC		Not sure
		Will be re-directed to waste regime, will not need full registration	Will remain as REACH intermediate, will need full registration	Complies with rigorous containment and other criteria already	Company working on improving containment and other SCC criteria, will comply in 2011	
1. Doré						
2. Matte, PM refining						
3. Slags, PM refining						
4. Slimes and sludges, PM refining						
5.1 Matte leaching residue						
5.2 Speiss leaching residue
