PARTICIPANTS

<i>Dave Boyd</i>	Johnson Matthey	United Kingdom
<i>Mark Raffray</i>	Johnson Matthey	United Kingdom
<i>Zuzana Hugonin</i>	EPMF	Belgium
<i>Albania Grosso</i>	WCA	United Kingdom
<i>Adam Peters</i>	WCA	United Kingdom
<i>Mark Crane</i>	WCA	United Kingdom
<i>Pete Watts</i>	BIBRA	United Kingdom
<i>Philip Copestake</i>	BIBRA	United Kingdom

PROPOSED (INFORMAL) AGENDA

1.	Interim Report
	1.1. Key points related to WCA/BIBRA progress to date; lessons relevant to the pilot and its future extension to the remaining substances and categorisation needs (WCA)
	1.2. Relative utility of: PMC supplied data, major reviews, individual studies, standard reference sources etc. (WCA)
	1.2.1. Confirm standard sources evaluated by contractors to date: especially for key physico-chemical data (WCA)
	1.2.2. Assess whether PMC can further contribute directly to data trawl (PMC)
	1.3. Meeting the objectives of the Pilot Project/timeplan for completion (All)
	1.4. Reporting of the Pilot (All)
2.	Testing needs
	2.1. What are the key data gaps that need to be filled by testing? (All)
	2.2. Test plan (All)
	2.2.1. Substances to be tested
	2.2.2. What end points should be addressed / immediate priorities, e.g. water solubility
	2.2.3. Tentative plan to conduct such work (CRO, timing, ball park cost expectation etc.) so that PMC can consider authorising any required work
3.	Conclusion
